

Cosmetic Procedures Screening Questionnaire (COPS)

This questionnaire aims to understand how you feel about your appearance prior to a cosmetic procedure. All information will be kept strictly confidential.

Please study this example before completing question 1. In a moment, we will ask you to describe the feature(s) of your body which you dislike or would like to improve. If you want to improve more than one feature, please list all the features in the space provided. Please note, the 1st feature should be the feature you are most concerned about.

This is an example of a woman whose main worry was her nose and who was concerned to a lesser extent by her skin and bottom.

1) Features Causing Concern

Please describe the feature(s) of your body, which you dislike or would like to improve.

1st Feature

Nose is too crooked with a bump

2nd Feature

Blemishes and acne scars on face

3rd Feature

Bottom is too big

We will then ask you to draw a pie chart and estimate the percentage of concern allocated to each feature. The person above completed her pie chart like this.

1) Features Causing Concern

Please describe the feature(s) of your body which you dislike or would like to improve.

1st Feature (feature you are most concerned about)

2nd Feature

3rd Feature

4th Feature

5th Feature

Now please draw a pie chart and estimate the percentage of concern allocated to each feature. Please ensure that your percentages add up to 100%!

From now on, we will refer to these concerns as your 'feature(s).'

Please read the next set of questions below carefully and circle the number that best describes the way that you feel about your feature(s). **Please read the labels carefully to ensure you are circling the number that reflects how you feel because some of the answers are worded in a reverse order.**
